

Program to read a file and capitalize the first letter of every word in the file

Program Logic

1. Take the file name from the user.
2. Read each line from the file and use the title() function to capitalize each word in the line
3. Print the altered lines of the file
4. Exit

In [5]:

```
1 file_name = input("Enter the file name : ")
2
3 #use with clause so that do not need to close file explicately
4 #open file in 'r' mode
5 #f is file discriptor
6
7 with open("s2 roll21.txt",'r') as f:
8     for line in f:
9         L = line.title()
10        print(L)
```

Enter the file name : s2 roll21.txt
